

Get More from Your AI and ML Investments

Security, agility, and visibility

MISSION-READY SECURITY

On-premises, air-gapped, or in the cloud, teams can securely collaborate, even with Controlled Unclassified Information

Granted Authority to Operate (ATO) at:

Top Secret in Intelligence Community

DoD Impact Level 4 (IL4) for CUI

Enterprise-wide in the U.S. Air Force at IL4 for CUI

NAVSEA at IL4/IL5 for CUI

FedRAMP Moderate+ IL4 Controls

Certifications:

Complies with NIST CSF, NIST 800-171, and SOC 2 type II

Bluescape was founded and is based in the U.S., and customer data is securely stored right here at home.

OPTIMIZE THE OPERATIONAL LOOP

Bring AI/ML systems into a collaborative workspace and accelerate insights into the decisions.

Work faster

See multiple outputs simultaneously for rapid comparison and analysis and to train models more quickly.

Improve decisions

Visualize alternate scenarios and results in a persistent environment and collectively evaluate options.

Communicate more effectively

Rapidly build story boards and construct context from disparate systems, videos, images, documents, and data.

Extend workflows

Discuss and interact with results in real time instead of reading static reports.

WHAT IS BLUESCAPE?

Bluescape is a secure virtual workspace that enables better decision-making and improves ROI on AI/ML projects. Create a digital workbench for comparing models, inputs, and outputs, communicating insights and analyses, and taking faster actions.

BLUESCAPE SOLVES THESE KEY CHALLENGES

Location

Geographically dispersed teams struggle to connect and engage

Knowledge Sharing

Leadership and teams lack visibility across complex processes

Agility

Teams require easy-to-use tools for day-to-day collaboration

Security

Being agile shouldn't mean putting your data at risk

BLUESCAPE FEATURES

Be on the same page, even if you are not in the same room. Bring all your content and data together in a workspace and create a single source of truth.

VIRTUAL WORKSPACES

Add, organize, and discuss content in an infinite collaborative canvas securely accessible from any device, at any time.

WHITEBOARDING

Use drawing and diagramming tools and virtual sticky notes to create planning boards, track progress, and capture and organize ideas and actions.

TEMPLATES

Support your ceremonies and Scrum teams with a library of 100s of templates. Customize or create your own templates, complete with access controls.

CONTENT SUPPORT

Securely share files, documents, live data, websites, applications, and high-resolution images and videos. Add links to approved cloud file-sharing services, including Microsoft GCC High.

ANNOTATION AND COMMENTS

Capture feedback and mark up documents with drawing tools. Add comments and @mention colleagues to keep everyone on the same page.

POPSYNC METASEARCH

Search multiple asset repositories at the same time and quickly review results in the workspace.

DEPLOYMENT OPTIONS

Flexible deployment options include public and private cloud. Physical installations on-premises and in air-gapped environments are also available.

API

The Bluescape API enables bi-directional integrations with third-party platforms and AI/ML solutions to see information in context and streamline workflows.

BRING YOUR OWN DEVICE

Access your workspaces and work together with others through your web browser or our desktop, mobile, and in-room clients.

ABOUT BLUESCAPE

Bluescape creates secure collaborative workspaces that make it easy to search for and share content. Increase team productivity and make better decisions by viewing high-resolution images and videos, text-heavy documents, and other files and data in their proper context. Customers include Fortune 100 companies, government agencies, higher education, and media and entertainment. Bluescape was founded and is based in the United States.
